

AK-ZG4206

Hardness: ≈ 30

Description: Super alloy, excellent high temperature red hardness, crack resistance. Suitable for high life extrusion, trimming, fast forging machine and other hot processing moulds.

AK-ZG4406

Hardness: ≈ 30

Description: Super alloy, excellent high temperature red hardness, crack resistance. Suitable for high life extrusion, trimming, fast forging machine and other hot processing moulds.

AK-ZG4606

Hardness: ≈ 30

Description: Super alloy, excellent high temperature red hardness, crack resistance. Suitable for high life extrusion, trimming, fast forging machine and other hot processing moulds.
